4) Pop the rubber tire stabilizers off of the tailgate.

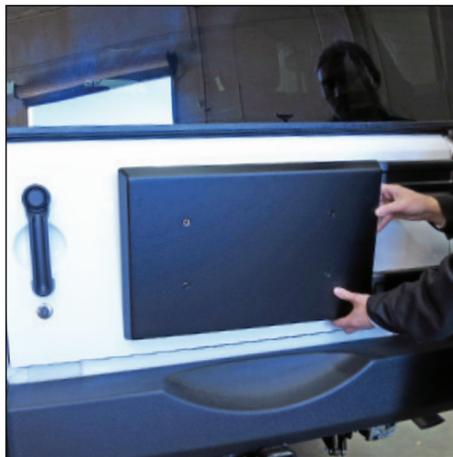

5) Using a 13mm socket, remove all 8 bolts that attach the spare tire mount to the tailgate.

6) Remove the spare tire mount from the vehicle.

7) Insert the flat head screws from the outside of the panel, and then on the inside, install a spacer and a spacer retainer onto the threads of each screw.

8) Hold the panel up to the tailgate and align the 4 screws. Make sure the vented edge of the panel is facing down.

9) Tighten screws with a large phillips screw driver.

Additional notes: on our own vehicles, we have mounted the license plate and a 3rd. brake light onto the panel as shown. All of the wiring for the lights brake, license plate, etc.) can be found in the loom in the right rear corner of the vehicle.
